

Screw Extractors

Screw Extractors

**Characteristics:**

- Hardened Steel
- Shock Resistant
- Helical Flute
- Square End

**Applications:**

- For removing Broken Screws
- For Removing Broken Pipe
- Use with a wrench

SCREW EXTRACTORS , MANUAL, SQUARE END					
Part #	Size	Capacity Screws & Bolts	Capacity Pipe	Corresponding Left Hand Drill	Set # Extractor + Drill
SE1	No. 1	3/32" – 5/32" (2.5 – 4mm)		5/64" (70905)	
SE2	No. 2	5/32 – 7/32 (4 – 6mm)		9/64 (70909)	
SE3	No. 3	7/32 – 9/32 ( 6 – 8mm)		11/64 (70911)	
SE4	No. 4	9/32 – 3/8 (8 – 10mm)	1/8" Pipe	1/4 (70916)	
SE5	No. 5	3/8 – 5/8 (10 – 16mm)	1/4" Pipe	5/16 (70920)	
SE6	No. 6	5/8 – 7/8 (16 – 22mm)	3/8" Pipe	28/64 (70928)	
SE7	No. 7	7/8 1-1/8 (22 – 27mm)	1/2" Pipe	9/16* (79236)	
SE8	No. 8	1-1/8 – 1-3/8 (27 – 36mm)	3/4" Pipe	13/16* (79252)	
SE9	No. 9	1-3/8 – 2 (36- 52mm)	1" Pipe	1-1/8* (79268)	
Note:	* Drills 9/16" - 1 –1/8" drills not available in Left Hand				

**Drills For Screw extractors:** Use a left hand drill if possible. Many times the drill action helps to loosen the broken screw. Size the screw extractor to fit 3/8" to 1/2" into the screw hole.
